DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/2/2009 has been entered.

Response to Amendment

2. This action is responsive to the Amendment filed on 10/2/2009. Claims 2-7, 9, and 10 have been amended. Claim 1 has been cancelled. New claims 12-18 have been added.
3. The Amendment filed on 10/2/2009 is improper since all the newly added claims (claims 15-18) should be underlined.

Broadened Claims in Reissue Applications

4. Claims 15-18 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. Amended claim 7 and new claim 15 do not include the limitation of "a lens" between the electro-optical component and

the receptacle found in claim 1. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

5. Claims 15-18 are rejected under 35 U.S.C. 251 as being improperly broadened in a reissue application made and sworn to by the assignee and not the patentee. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Oath/Declaration

Supplemental Reissue Declaration is required. See MPEP 1414.01 & FP 14.05.02

(a) If additional defects or errors are corrected in the reissue after the filing of the application and the original reissue oath or declaration, a supplemental reissue oath/declaration must be filed, unless all additional errors corrected are spelling, grammar, typographical, editorial or clerical errors which are not errors under 35 U.S.C. 251 (see MPEP §1402). In other words, a supplemental oath/declaration is required where any "error" under 35 U.S.C. 251 has been corrected and the error was not identified in the original reissue oath/declaration. See MPEP 1414.01

(b) All oaths/declarations in a broadening reissue application must be signed by all of the inventors (except as otherwise provided in the rules, -see 37 CFR 1.42, 1.43, 1.47).

(c) Supplemental Reissue Declaration is required for the corrections/amendments to the claims which were filed on 10/2/09.

6. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the amendment to the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

7. Claims 2-18 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
